

COLLEGE OF FOOD TECHNOLOGY

*Successful Alumni
At Glance...*

**ASSOCIATE DEAN AND PRINCIPAL
COLLEGE OF FOOD TECHNOLOGY, VNMKV, PARBHANI**

VISION

- ▶ To Impart Quality Higher Education In Food Science and Technology to the Students For Making Career in the Food Industry, Academia, or Government institutions.
- ▶ To provide basic and Applied Research in Food Technology for benefit of farmers, food industry and consumers

MISSION

- ▶ Global Human Hunger and Poverty Alleviation through Rightful Safe Food

Dr. B. VENKATESWARLU
VICE-CHANCELLOR

MESSAGE

The College of Food Technology under Vasant Rao Naik Marathwada Krishi Vidyapeeth, Parbhani was established in 1976 at Parbhani. During this 40 years journey, the college has produced large number of students who have made a mark in the society through their academic and professional achievements. The college began with an intake capacity of 32 for B.Tech. (Food Technology), and today the college annually admits 64 under graduate, 15 post graduate and 05 doctoral students. Since establishment VNMKV food technology college produced more than 1574 graduates.

This was one of the earliest food technology colleges established under the ICAR-SAU system in the country. The alumni of the Food Technology college have established themselves in different fields like food processing industry, food safety and quality assessment, entrepreneurship development, teaching and research and civil services both in the State and Central Government and brought recognition to their alma mater. Several of the earlier graduates are now in driving positions in leading corporate organizations shaping the food processing policy in the country.

With the Government of India and State Governments giving high priority to food processing sector, I have no doubt that the students of food technology will have bright future. However, it is very important to connect and net work all the ex students so that the success stories and experiences can be shared among the new students. In this regard, I congratulate the faculty of the food technology college of VNMKV for bringing out a comprehensive directory of passed out students along with their current position and expertise. I am sure this directory will immensely help the past and present students to network themselves efficiently and make further progress in their career.

I compliment the authors for bringing out this important directory.

Dr. Ashok S. Dhawan

Director of Instruction and Dean F/A

MESSAGE

Indian Agriculture has transformed predominantly from subsistence agriculture to its highly commercialized and technologically advanced form. The food processing sector has emerged as a gambit of opportunities for all food technological professionals. The College of Food Technology under Vasant Rao Naik Marathwada Krishi Vidyapeeth, Parbhani being one of the pioneer institutes in the area of Food Science and Technology nurtured more than thousand highly skillful Food Technologists since its inception who are occupying key positions in the Government Institutions, Public sector undertakings, leading premier Food Science Institutions and all types of the corporate organizations from multinational corporations to small and medium enterprises.

In this context, it is appropriate to compile the information of our illustrious alumni with their detail information many of whom are potential employer of our Graduates and Post Graduates students from faculty of Food Technology and also contributing for fulfilling the dream of "Make in India Mission" as envisaged by our Hon. Prime Minister of India.

I appreciate the initiative taken by the Associate Dean and Principal and his colleagues from College of Food Technology for publishing the directory of pass out students from the faculty who are shouldering the responsible positions in different walks of life.

I wish them very good success in their efforts in nation building.

(Ashok S. Dhawan)

MESSAGE

Prof. (Dr.) Arvind Sawate

M.Tech. Ph.D. (Food Tech)
Associate Dean and Principal

Food processing sector is in transition phase due to the advent of newer technology and knowledge explosion in the area of Food Processing, especially Functional foods or Nutraceutical based Supplements. Efforts have been made to safeguard the food supply chain through Regulatory reforms to curtail down post-harvest losses to increase Processed Food Product base in the Domestic and International market. Processing Sector as a major component of Make In India as India is the largest producer of milk, second largest producer of fruits and vegetables, and one of the leading producer for various cereals, legumes, oilseeds, spices and condiments, the scheme of Mega Food Parks have been launched to attract the foreign investors.

College of Food Technology, one of the oldest faculty of Asia and always ahead in adopting newer technologies for Education, Research and Extension as well as to fulfill the contemporary needs of food industry, the CFT PBN decided to create a network of all the passed out students who are now in key positions in various organizations. Hence it has decided to publish a comprehensive directory containing the whereabouts of the passed out students, their expertise and command area, special achievements and contribution to the serving institutions.

I hope this directory will serve as an important comprehensive document for the benefits of staff and student community of the VNMKV, Parbhani.

(Arvind Sawate)

About the College

College of Food Technology was established in 1976 as one of the constituent college of Vasant Rao Naik Marathwada Agriculture University Parbhani to fulfill the academic and practical aspiration of the people of Maharashtra. The aim of the College of Food Technology is to provide an excellence in education leading to a successful career in related fields of endeavor in academics, research, food and allied industries, services in public and private sectors globally

Goals And Objectives

- ▶ To emphasize the need of innovation and mechanisms to ensure the quality & excellence in the mandatory activity i.e. teaching, research and extension.
- ▶ To impart in-depth & comprehensive practical knowledge of the Food Technology & also arming the students with management skills and professional attitudes.
- ▶ To intensify the research & development of various technology well suited to agro-based industries.
- ▶ To disseminate viable technology for agro-based industries among the general public through consultancy, entrepreneurship development and by creating nutritional, food security and safety awareness.
- ▶ To assess and help the Govt. of Maharashtra in planning, monitoring and also formulating food and human nutrition policies.
- ▶ To help farmers/ entrepreneurs by improving post harvest technologies not only to save what is produced but also to produce value added products using the concept of whole plan and animal biomass utilization.

Farmer
Entrepreneurship
PROGRAM

Academic Programmes Offered

- ▶ B. Tech (Food Technology) - 4 years full time degree program in Food Technology – intake capacity 64 students per year.
- ▶ M. Tech (Food Technology) - 2 years full time post graduate degree program in Food Technology – intake capacity 15 students per year.
- ▶ Ph.D (Food Technology) - 3 years full time doctoral degree program in Food Technology – intake capacity 5 students per year.

Departments in the Faculty of Food Technology

The mandatory responsibilities i.e. teaching, research and extension of the college have been shared among the six following departments namely.

- ▶ Food Science and Technology
- ▶ Food and Industrial Microbiology
- ▶ Food Trade and Business Management
- ▶ Food Engineering
- ▶ Food Chemistry and Nutrition

Sponsored Research Projects

This college is actively engaged in carrying out applied and basic research related to food science and technology since its inception. Several research projects sponsored and financed by UGC, ICAR, UNICEF, Indo-US aided, NHB, NATP, AICRP, ATMA and some of the state govt. aided are in operation in this faculty.

Thrust Area of Research in the faculty of Food Technology

- ▶ Post harvest technology of food crops
- ▶ Processing of fruit and vegetables
- ▶ Studies on alternative uses of cereals and millets
- ▶ Studies on industrially potential galactomannan gum from guar, sesbania cassia, subabool, etc.
- ▶ Studies on native and modified starches from pearl millets, production of glucose and fructose syrups maltodextrin, CMS.

- ▶ Studies on agriculture waste residue utilization for the production of xylitol, sorbitol and ethanol
- ▶ Studies on fermented, functional and specialty food
- ▶ Biochemical and nutritional studies on milk and milk products such as dahi and yoghurt
- ▶ Studies on meat, fish and poultry products and by products
- ▶ Studies on utilization of plant residue for preparation of value added and herbal health care products.
- ▶ Studies on preparation of commercial value added products from mushroom
- ▶ Niche area of excellence on development of Agro based nutraceuticals for health security

Salient Features

- ▶ Selection of the candidates at national level on merit basis.
- ▶ Professional and practical Oriented Quality Education.
- ▶ Autonomous courses under Vasant Rao Naik Marathwada Agricultural University, Parbhani
- ▶ High Employment Profile and Self employment opportunities

Infrastructure

- ▶ Classrooms are well equipped with LCD, interactive boards, over head projectors and computers
- ▶ The system of teaching and learning is supported by audio-visual teaching aids as per need of food technology students

Laboratories are well equipped with sophisticated equipments/instruments for the analysis of

- Nutraceutical components
- Proximate composition
- Phytochemicals
- Minerals and vitamins
- Amino Acid profile
- Texture profile analysis

University / College Library

The university has a central library having 90000 books, above 220 periodicals, 127 annual reports, 8 type CD-ROM and 8100 thesis. The faculty of food technology has also a comprehensive collection of reference books, periodicals, journals related to food science and technology. The faculty also runs a library for students of minor categories.

Computer Lab

Faculty has separate Information Technology Centre with well furnished, high speed broad band connectivity computer lab specially to cater to a specific need of the food tech students.

Pilot Bakery Unit

The institute has well equipped bakery plant with all required baking equipments. The students prepared and sale various bakery products viz. Bread, Biscuit, Cake, Cookies, in the university campus and city.

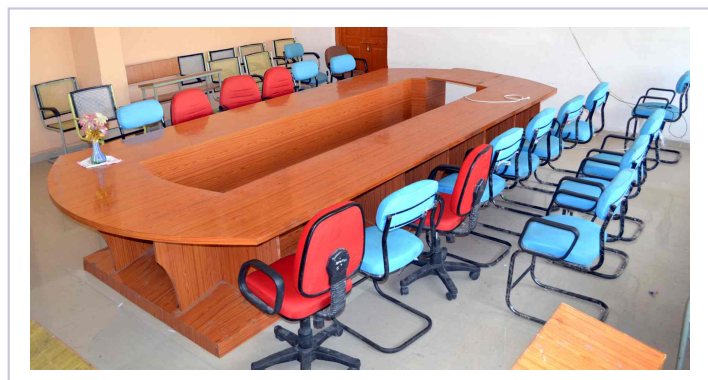

Pilot Bakery Unit

Baking Equipments

Seminar Hall/ Conference Hall

The institute has a spacious, well furnished conference hall provided with LCD Projectors and interactive boards to deliver the seminar of M.Tech and Ph.D students.

Additional Available Facilities

- Counseling and Placement cell
- Earn While Learn scheme
- Precooling Unit/Cold storage facilities
- Mini rice and dhal mill
- Beautiful self contained campus with all facilities
- Nichea area laboratory
- HPLC, GC, TLC, Freeze Dryer, Spray Dryer, Biostat Fermentor
- Turmeric Processing Demonstration Plant

HPLC

Sports and Allied Activities

The faculty has very good infrastructure facilities for indoor and outdoor sports. The students also participate in co-curricular activities like NSS, NCC, Games and cultural events to upgrade their physical and mental tranquility. The gymkhana activities mainly sports, alumni function, debate, essay competition provides golden opportunities and platforms to the students to upgrade their inherent potentials.

Students Hostel Facilities

- Faculty has a well furnished separate UG (Shishir) and PG/Ph.D (Devigiri) hostel for boys and Varsha and Rajmata hostel for girls.

Study Tour

The institute organized study tours for under graduate and post graduate courses at different food processing industries to have knowledge about the various aspects of industrial production of food products.

Student Counseling and Placement Cell

The institute has student counseling and placement cell for guiding student in their academic and co-curricular activities. The faculty also invites various multi-national food processing companies for recruitment of under-graduate and post-graduate students.

Hands on Training (Experiential Learning Programme)

- ▶ Students of seventh semester offered Hands on Training (Experiential Learning Programme) in
 - Fruit and Vegetable Technology
 - Bakery and Confectionary
 - Grain Processing Technology

In-plant Training

- ▶ In-plant training cell of the faculty co-ordinate and monitor the in-plant training programme.
- ▶ A student or batch of students are placed to the various esteemed multinational food industries for four month in-plant training programme.

Earn While Learn Scheme

The students of the faculty prepare different processed food products under 'Earn While Learn' scheme to as a part of building up of entrepreneurship abilities.

Sale of food products under EWL

Alumni Association

- ▶ College of Food Technology, Parbhani has a strong alumni association from last three and half decades
- ▶ Alumni form a special stake holder for an institute to flourish and grow in stature
- ▶ CFT-PBN alumni provides opportunities for career development, networking for employment generation and overall human resource development in their core field.

Achievement

- ▶ Graduates, Post graduates and Ph.D students till to date serving in multi national companies and reputed food and allied industry as Technical, Managerial and Quality Assurance Personnel and Academics / Researchers, in national and international reputed institutions/Research Laboratories, Administrative officers in revenues, police and other government sectors.
- ▶ Organized National level seminar and popular lecture series
- ▶ Organized EDP and Food Processing Training for farmers and other stake holders

New Initiatives

- ▶ Establishment of Codex Standard food analytical Laboratory.
- ▶ The revision of syllabus of B.Tech and M.Tech degree program.
- ▶ Modernization of Pilot Plant with addition of processing lines.
- ▶ Strengthening of Students Counselling and Placement Cell.
- ▶ Certification and Training Program on specific areas of Food Processing.
- ▶ Consultancy Services in Technology transfer , Know-how, Project Planning as per FSSAI standards
- ▶ Commercialization of Technologies for strengthening university Industries linkages.

Technology Generated

- Dehydration of vegetables
- Dehydration of fruits and fruits slices
- Banana products
- Chips and wafers from banana and potato
- Production of fruit juices and squashes
- Post harvest treatment for extension of shelf life of fruits and vegetables
- Technology for processed products from sweet orange
- Debittering technology for sweet orange
- Fruit wines
- Candied fruits
- Pickle, chutney and sauces
- Ginger products

- Aonla products
- Dalimb manuka
- Custard apple products
- Tamarind products
- Sorghum based products viz; malt, beer, weaning food, poha, liquid glucose
- Fortified biscuit and cookies
- Soybean paneer, dahi and yoghurt
- Protein isolate and concentrate of soybeans
- Soyabean papad
- Extruded snack food
- Fermented products like tempeh
- Meat chunk
- Soup powder
- Fish finger
- Dried egg powder

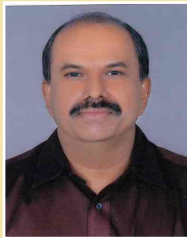

Industrial Services

- Preparation of Project report for food industry
- Product development
- Consultancy in technology incubation
- Auditing, Certification procedure, Implementation plan for HACCP, ISO, GMP, TQM, OHSAS, CAC, etc.

OUR SUCCESSFUL FORMER STUDENTS ARE INDUSTRIALISTS & ENTREPRENEURS
